## Fresh & fun

If words like “vibrant” and “lively” resonate with you, take your color cue from the Luv U Zoo™! It’s a whole collection of bright, juicy, amped-up colors that you’ll go “wild” for—and so will baby! The mix of warm and cool and the in-between hues give it a trendy twist. And there’s a host of friendly zoo animals in the Luv U Zoo fabrics for baby to wake up to! How fun is that?

## Soft & warm

Create a sanctuary for baby with the inherent warmth of taupes combined with the tranquility of blue-greens. Accent with the softest, most soothing pastels for a restful, relaxing environment for sleep (here's hoping!). And when it's time to wake up and start the day, baby will be greeted by the fun, friendly animals in the fabrics of the Coco Sorbet™ Collection.

## Primary pop

Create a room with strong character (in this case, many adorable characters!) mixing neutrals with bright, bold colors from a modern primary palette. It's friendly. It's cheerful. It's fun! Whether you choose just one shade as a main color or go all-out and use them all, let the Adorable Animals in this collection inspire you to design a room filled with whimsical delight!

## It's a girl!™

Rosy cheeks. Delicate pinky toes. Sweet as cotton candy. You already know it's a precious baby girl, so you want a color scheme that says just that. Of course, you want pink in her nursery and in her Baby Gear. But not just any pink will do. Whether it's an accent or the main color, it has to be perfectly pink and pretty—just like you imagine she'll be. With sixteen different "girly" shades to choose from, you're sure to find a way to make that pink pop!
